

**Engineering
Technician
(2nd Shift)**

Taconic, a highly successful global manufacturing company, is seeking a self-motivated, responsible individual to work as an **Engineering Technician** in our Engineering Department.

Primary duties will include:

- Coating engineering trials.
- Testing new candidate materials.
- Assisting in problem solving of production materials.
- Write reports summarizing test results and communicate results to engineering staff.
- Work with members of production staff and recommend solutions to problems they encounter.

Requirements:

- Associate's degree or equivalent experience.
- Three years of experience in a manufacturing setting preferred.
- Must have strong writing skills with the ability to compose Engineering reports using MS Word and Excel.
- Must have the ability to adapt to changing priorities, communicate effectively and maintain effective working relationships with managers and production operators.
- Should have the capability to solve problems using scientific methods.
- Ability to work independently and as a team member in completing daily tasks and assignments.

Salary range: \$20.00-\$23.00 per hour

We offer a competitive benefits package including medical, dental, vision and life insurance, a competitive compensation and retirement package, tuition assistance, vacation, a business casual work environment and more!

Resumes should be sent to Human Resources at hr@4taconic.com or mailed to:
