

Health and Safety Engineer

Taconic, a global leader in the manufacturing of PTFE coated fiberglass fabric, belts and tapes is seeking a Health and Safety Engineer for our corporate office in Petersburg, NY to provide oversight and management of Human Health and Safety activities. Coordinates and/or performs all duties necessary to ensure compliance with all federal, state and local laws, and in-plant safety programs for Petersburg, NY, La Verne, CA, and Ontario, Canada facilities. Provides guidance and management of Safety Coordinator.

Bachelor's degree in Engineering/Management Studies or related discipline and five years of health and safety experience within a manufacturing setting. Good interpersonal skills, including the ability to keep groups focused on tasks and to prioritize tasks based on changing working conditions and customer and coworker expectations. Positive approach to change management including an understanding of the human aspects of change management. It is important for the individual who fills this position to be self-motivated and inclined toward continuous personal improvement, education, and development for themselves and others. Excellent written, oral and computer skills required. Experience working with regulatory agencies. Have knowledge of company manufacturing processes with the ability to recommend changes as necessary. Have experience or training knowledge in Industrial Hygiene and OSHA regulations.

We offer a competitive benefits package including medical, dental, vision and life insurance, a competitive compensation and retirement package, tuition assistance, vacation, a business casual work environment and more!

Resumes should be sent to the Human Resources Director at hr@4taconic.com or mailed to:
