

Director of Manufacturing

Taconic, a global leader in the manufacture of PTFE-coated fiberglass fabrics, belts, tapes and composites has an opportunity for a Director of Manufacturing who will lead our US production operations, including facilities in Petersburg, NY and La Verne, CA.

This team member will work from the Petersburg, NY facility, traveling 15% of the time to other Taconic facilities and customers. Responsibilities include strategic and day-to-day leadership of the production and production support departments, including maintenance and quality control. Ensures all policies and procedures are implemented and followed during manufacturing processes. Works on equipment- and process-related problems, including debottlenecking, troubleshooting, new equipment installation and department logistics; improving on Taconic's capability and commitment to manufacturing consistency and data driven operations.

Bachelor's degree in Mechanical or Chemical Engineering, with training and experience in management and problem-solving techniques preferred. Experience with statistical process control is a benefit. A B.S. candidate should have 10-15 years of experience in a manufacturing setting, preferably with 5-10 years of management experience. Fluoropolymer or coating experience a plus. Must be able to work in a fast-paced environment with ability to prioritize and adapt, based on changing work conditions and customer requirements. PC literate with experience with MS Office preferred. Must be able to communicate clearly, develop messaging for reporting departments, and manage and implement change within in the organization, both locally and in a remote (CA) plant site.

We offer a competitive benefits package including medical, dental, vision and life insurance, a competitive compensation and retirement package, tuition assistance, vacation, a business casual work environment and more!
