

## Product Specification 6095-06-TW-GRN

Taconic 6095-06-TW-GRN is a modified premium PTFE coated fiberglass tape complete with silicone adhesive. This tape is included in the TacWeld family of tapes. The modified PTFE tape surface assists with higher abrasion resistance and strong release properties. The enhanced silicone adhesive survives elevated temperatures better and longer than standard materials. This tape is commonly used for PVC window welding, poly film conversion, and mold release applications. The tape is available with a yellow dimpled PVC release liner. Maximum width is 42" wide.
